An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for July is 5.2 percent, eight-tenths of a percentage point below the national rate of 6.0 percent, Craig E. Hartzer, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during July 2002 was 3,029,500.

Indiana's July unemployment rate was lower than Illinois, 6.7 percent; Michigan, 7.2 percent; Ohio at 5.8 percent; and Kentucky, 5.3 percent.

"Indiana's unemployment rate rose two-tenths of a percent for the month of July. Declines in manufacturing, construction and service producing sectors contributed to this increase," commented Hartzer.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,876,900, a decrease of 34,200 from one year ago and 25,000 less than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 623,000 in July, a decrease of 19,700 from last year. Motor vehicle manufacturing accounts for 92,200 jobs, 400 more than one year ago. Manufacturing of motor vehicle parts totals 60,300. Industrial machinery manufacturing in July accounts for 63,500 Hoosier jobs, 100 more than June.

Construction employment totals 150,700 a decrease of 700 from last month. Of that, heavy construction reports 20,800 jobs, an increase of 2,000 from last year.

Service producing employment totals 2,096,100 in July, 8,500 less than last year. Transportation and public utilities total 142,700, 200 less than June.

(over)

Retail trade totals 549,800, 7,800 less than a year ago. Of that, general merchandise stores report employment of 77,900, or 2,200 less than last year. Service sector employment, such as business services, computer and data processing, totals 749,800 in July, which is 5,800 more than the previous year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,194,200 in July 2002.

An estimated 3,029,500 Hoosiers are employed and 164,700 are unemployed.

Indiana's labor force for July 2001 totaled 3,157,100. Hoosiers employed one year ago is estimated at 3,012,800, and July 2001 unemployed in Indiana totaled 144,300. Indiana's estimated unemployment rate one year ago was 4.6 percent, compared with the national unemployment rate of 4.7 percent in July 2001.*

Industry Payroll Employment

Selected Categories	July 2002	Change from June 2002	Change from July 2001
Goods Producing	780,800	-1,800	-25,700
• Construction	150,700	-700	-6,400
• Manufacturing	623,000	-1,100	-19,700
Service Producing	2,096,100	-23,200	-8,500
• Retail Trade	549,800	-800	-7,800

*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at <http://stats.bls.gov/launews1.htm>.
